INTERNSHIP

Y-Hills Learning | Noida
SDE Intern — Since Jan 2023

- Implemented and designed the front-end solutions for a number of real-world projects, thus, making the users experience and interface design usually be of high quality.
- Within a highly dynamic team environment, participated in enhancing communication and problem-solving skills while applying modern web technologies.

Up-skillz Learning | Bangalore
Data Analytics Intern — Since Feb 2023

- They took part in data analysis projects that were targeted at creating business insights and improved decision-making processes.
- Graphical and statistical skills were improved through team cooperation and dealing successfully with complex data issues.

PROJECTS

Personal Portfolio (Website): — Since Nov 2022

Personal website designed and developed using HTML and CSS.

Moreover, JavaScript advanced the development of user interactivity and the functionality for its project.

Professional skills and experience were presented throughout my career and a captivating, as well as a flexible, interface was created.

Covid-19 Prediction using Machine Learning: — Since Mar 2023

An accurate model to predict the pandemic was trained by the density, active cases, mobility, and policies during the period.

Not only will the model estimate the progression of the disease, but it will also provide relevant information toward a path of public health management.

The Python libraries, such as Scikit-learn and Pandas, and techniques like modeling were used in solving the problem.

Construction Industry Web Application: — Since Dec 2022

It was a web app showcasing construction techniques, resources, and classroom tools.

The concept evolved into a dynamic page, highlighting platform benefits and improving user experiences.

The development was done using HTML, CSS, JavaScript, Node.js, and MongoDB.

CERTIFICATES

- Python Programming Certification — June 2023
- Certificate of Internship in Social Initiatives - by NGO(Sahara). — July 2023

ACHIEVEMENTS
